iiyama Driver Instruction

Drivers for touch screens with EETI eGalaxTouch controller:
iiyama ProLite Txx31
iiyama ProLite Txx32
iiyama ProLite Txx34

SR = Resistive
SAW = Surface Acoustic Wave
MSC/MC = Projective Capacitive

Windows 7/8/10
HID compatible, no driver needed.
The touch function should operate without installing any drivers.

Linux
Most recent Linux distributions will work Plug & Play.
Linux (Kernel 3.11 & above is Plug & Play, Kernel 2.4 will need a separate driver download).

Other operating systems
Check available drivers on the controller manufacturer website: http://www.eeti.com.tw/drivers.html
You will go to an external website where you can download drivers. Iiyama did not test these drivers and is not responsible for wrong downloads. Please contact your local IT-helpdesk if you need assistance.

Touch support operation

■ TOUCH support operation system
